BUG HUNTER

MohamedTahaElshishtawy@gmail.com | +20 114 120 2347 | Cairo, Egypt | [LinkedIn](#) | [GitHub](#)

Profile

Cybersecurity practitioner and Computer Engineering graduate specialising in offensive security and penetration testing. I have built hands-on expertise through intensive ITI training, structured security labs, and continuous practice on PortSwigger Web Security Academy and Hack The Box. I am currently active as an independent Bug Hunter, identifying and responsibly disclosing real-world vulnerabilities, and I am eager to strengthen my academic and technical foundation while helping protect critical systems and infrastructure.

Professional Experience

Bug Hunter — Independent / Freelance Present
Offensive security research and responsible vulnerability disclosure

- Research and exploit security flaws across web, mobile and network targets, mapping findings to the OWASP Top 10.
- Reproduce, validate and document vulnerabilities, then report them through responsible-disclosure channels.

Cyber Security Diploma, Trainee 07/2025 – 12/2025
Information Technology Institute (ITI) — Intensive Training Program

- Completed an intensive, hands-on program covering web, mobile, network and Active Directory penetration testing.
- Applied industry-standard tooling and methodologies in guided labs, strengthening reporting and teamwork skills.

Education

B.Sc. in Computer Engineering — Menoufia University 09/2019 – 06/2024
Faculty of Electronic Engineering

- Graduation Project: *Implementing and Securing Network Infrastructure* — graded **Excellent**.
- Foundation in computer networks, systems and software engineering relevant to security work.

Certifications

- **eWPTv2** — eLearnSecurity Web Application Penetration Tester ([verify](#))
- **CyberTalents** — Web Application Penetration Testing ([verify](#)); Mobile Application Penetration Testing ([verify](#)); Active Directory Penetration Testing ([verify](#))
- **In progress:** CPTS — Certified Penetration Testing Specialist (HTB)

Technical Skills

Penetration Testing	Web, mobile and network assessments; OWASP Top 10 exploitation and mitigation
Scripting	Bash, Python
Tools & Platforms	Burp Suite, Nmap, Metasploit, SearchSploit, Frida, Kali Linux
Security Domains	Vulnerability assessment, Active Directory, network security & routing, OSINT, system administration

Interpersonal Skills

- | | | |
|-------------------------------|------------------------------|----------------------------|
| • Fast, self-directed learner | • Clear communication | • Teamwork & collaboration |
| • Presentation skills | • Strong attention to detail | • Technical report writing |

Languages

Arabic	Native speaker
English	Proficient (professional working proficiency)
